

Madeline Jensen

Clatskanie, OR (Remote) // madelinelise@gmail.com // 971-326-5680

Engineering Manager with 8 years experience in leading teams
& developing projects from concept to implementation.

Experience

● Engineering Manager

O3 World, Nov 2021 - Present

- Manage the professional growth of 9 direct reports including senior, midlevel, and junior engineers.
- Architect and oversee the development, release cycles, and team resourcing of enterprise software development projects.
- Be a key player in implementing a solid engineering practice. This largely involves empowering and including my team in the ideation and solution process to determine what is best practice, what processes we want to implement, and what tools or partnerships to evaluate for our team.

● Senior Developer

Mediacurrent, June 2019 - Nov 2021

- Lead developer for enterprise open-source projects using React, Gatsby & Drupal. Including performing discoveries for new builds, building out technical specifications, and leading the team through implementation.
- Contributor to mentorship programs and creating training and orientation material, and invested in overall team growth.

● Supervisor, Web Services

Volusia County Schools, Dec 2016 - June 2019

- Led the Web Services team that was responsible for all web properties for the school district including the re-design of 70 school websites and a district website including over 100 department subsites.

● Manager, Web Content

Furniture Leisure, Dec 2014 - Dec 2016

- Content manager and strategist for 5 eCommerce websites. Oversaw the relaunch of 2 eCommerce websites to an upgraded system, new design, and improved content for SEO.

Education

● Bachelor's in Science - Information Technology

Daytona State College, Graduated 2017

Skillset

Here are some things I feel I have pretty deep experience in. I'm open to learning any new frameworks or technologies if it's a good fit for a project or our team. If you're interested in talking about component-based development or open source software at a conversational level, we may be a good fit. :)

- Component based dev.
- Solutions architecture
- Hiring & interviewing
- Release management
- Utilization & forecasting
- Scrum / Agile
- Drupal 7 / 8 / 9
- SASS/SCSS
- Pattern Lab / Storybook
- Node / npm / nvm
- Web accessibility
- Flexbox & Grid
- React
- Javascript
- CI/CD
- Gatsby
- Twig
- Git

Projects + thought leadership

These are a few of my favorite projects. Please look at my entire portfolio at madelinejensen.netlify.app to learn about all the projects I've contributed to, the articles I've written, and the webinars & video series I've developed.
