

Madeline Jensen

Clatskanie, OR (Remote) // madelinelise@gmail.com // 971-326-5680

Engineering Manager with 8 years experience in leading teams & developing projects from concept to implementation.

Experience

● Engineering Manager

O3 World, Nov 2021 - Present

- Manage the professional growth of 9 direct reports including senior, midlevel, and junior engineers.
- Engineering lead for a \$1.3 million a year budgeted project. Responsibilities include managing releases, performing code reviews, defining technical requirements and ensuring that I remove any barriers if our team becomes blocked.
- **Projects:** seic.com • employee benefits platform • TMNAS • recphilly.com

● Senior Developer

Mediacurrent, June 2019 - Nov 2021

- Lead developer & solutions architect with open source technologies such as React, Gatsby & Drupal.
- Contributor to mentorship programs and creating training materials, orientation material, and overall team growth.
- **Projects:** scholarsedge529.com • nasdaq.com • college.harvard.edu • psu.edu/news • pwc.com
magmutual.com • alzimpact.org • sralab.org • visittheusa.com • drupal.org/project/collective

● Supervisor, Web Services

Volusia County Schools, Dec 2016 - June 2019

- Led the Web Services team that was responsible for all web properties for the school district including the re-design of 70 school websites and a district website including over 100 department subsites.

● Manager, Web Content

Furniture Leisure, Dec 2014 - Dec 2016

- Content manager and strategist for 5 eCommerce websites. Oversaw the relaunch of 2 eCommerce websites to an upgraded system, new design, and improved content for SEO.

Education

● Bachelor's in Science - Information Technology

Daytona State College, Graduated 2017

Skillset

I like to keep a variety of soft skills & technical skills sharp, but I tend to focus on leadership qualities and adapt to whatever framework or programming language as I need to. But here are some things I have pretty deep experience in. If you're interested in talking about component based development or open source software at a conversational level, we may be a good fit. :)

- | | | |
|-----------------------------|---------------------------|--------------|
| — Component based dev. | — Drupal 7 / 8 / 9 | — React |
| — Solutions architecture | — SASS/SCSS | — Javascript |
| — Hiring & interviewing | — Pattern Lab / Storybook | — CI/CD |
| — Release management | — Node / npm / nvm | — Gatsby |
| — Utilization & forecasting | — Web accessibility | — Twig |
| — Scrum / Agile | — Flexbox & Grid | — Git |

Projects + thought leadership

I've contributed to many projects, webinars, articles, and even a YouTube series based on component based development. Take a look at my work and the organizations I've worked with at
